

Multiple Choice Quiz: Section 1.3: Recycling Fiber-Reinforced Composites

_____ 1. What chemical process shows the most promise in recycling composites?

- A Incineration
- B Pyrolysis
- C Acid mixing
- D Baking

_____ 2. What is the main reason chemical recycling not as popular as mechanical recycling?

- A Lengthy
- B Costly
- C Environmental
- D High Compressive Strength

_____ 3. The fuel value of polymer matrix composites is _____ the fuel value for coal.

- A Half
- B Twice
- C Same
